Importance of eBrckkiln

eBrickkiln Software developed for All kind of bricks industry to manage their account, sale , manufacturing process ,stock and related work .eBrickkiln Software developed with the help of efficient and experienced minds of uSofts team ,Brick kiln Owner , CA, Accountants and other Concerns. So all business requirement fulfill under single roof"

All Brick kiln owner want to keep the following information on his/her finger tips:

- ✓ Reminder for All payment and receipt related to business means when and how much to pay to them.
- ✓ How many raw bricks or tiles are immediately available next day for kachi Bharai ?
- ✓ How many raw bricks or tiles are wasted (Kharaba) during rainy days or other reason?
- ✓ How many raw bricks or tiles are transported to the kiln or sheds (Used to store raw bricks and tiles)?
- ✓ Compete detail of their ledger account with work detail done by them.
- ✓ Complete and accurate detail of final stock after nikasi.
- ✓ Category wise bricks and tiles that are immediately available for sale?
- ✓ Every minute information relating to account books e.g. list of debtors and creditors etc.

As we know in IT era everything is going to digitalize so using traditional system of accounts (especially non-computerized system) it is almost impossible to obtain the aforementioned information with high accuracy and within desired time. but being a responsible company, who is serving brick kiln industry for last 12 years, we consider it our primary responsibility to guide and advise (on how to buy a good software for brick kiln) all brick kiln owners who still are not using computer as their primary record keeping tool or are using computer to maintain record .

Main Keyword or Terminology used in eBrickkiln

The main keyword used in eBrickkiln Software which is easy to understand the software working and flow. Because these keywords are commonly used in all state of India.

Line type - In brick kiln business brick are placed inside the kiln or round in shape of line . These lines are in different shape and size so these different lines also known as Pawa type etc.

Kachi Bhari: The process of filling kachi bricks or tiles in the kiln or in Stock.

Round /Gher/chakker : Raw bricks are set up in a circular rows in a kiln. This circular path when meet on starting point is called a 0ne round or Gher.

Kharaba/Gaal/Wastage : The total of raw bricks or tiles that are wasted by rain or any other reason.

Finished Stock : Stack of baked bricks. Every stack of finished bricks has different grade of bricks. Brick kiln owners keep stack wise stock also.

Daily : A document filled by supervisor of brick workers to keep daily record of bricks made by brick workers.

**Pather:** A location where Patheras (Person whose make the raw bricks) molded the bricks.

Nikashi: Process to carry out the baked brick or tile from kiln.

Phukayee /Jalayee : Process to baking of bricks on daily basis.

Stack(Chakka or Chatha) : Chatha or chakka is the place where bricks are placed after nikasi
